Professional Summary

Motivated and self-taught Front-End Developer with hands-on experience building responsive web applications using **HTML, CSS, JavaScript**, and **React**. Proficient in modern React practices such as **Hooks**, **useReducer**, and **custom hooks**, with a solid understanding of **UI/UX principles** and clean component architecture. Currently exploring **Context API** and advanced state management. Eager to contribute to collaborative, fast-paced development teams.

Technical Skills

- **Languages & Frameworks:** HTML5, CSS3, Sass, JavaScript (ES6+), React (Hooks, useReducer, useRef, Custom Hooks)

- **Styling & UI:** Responsive Web Design, Flexbox, CSS Grid, BEM, Animations, UI/UX Basics

- **Tools & Technologies:** Git, GitHub, VS Code, Chrome DevTools, LocalStorage, GitHub Pages

- **Soft Skills:** Problem-Solving, Communication, Teamwork, Adaptability

---

Projects

Travel List App | GitHub

React, useState, JSX, CSS

- Built a dynamic travel To-Do app with **task sorting**, toggle, and delete features.

- Focused on **state management**, **component logic**, and **responsive design**.

Expense Tracker | [GitHub](#)

React, useState, useEffect, LocalStorage

- Developed a financial tracker with **category filtering**, **total expense calculation**, and **persistent state** using LocalStorage.

React Quiz App | [GitHub](#)

React, useState, useEffect, JSX, CSS

- Created a quiz app with **question navigation**, **score tracking**, and **auto-submit timeout** using countdown logic.

- Managed side effects with `useEffect` and handled conditional rendering.

JavaScript Projects | [GitHub Profile](#)

JavaScript (ES6+), DOM, APIs

- **Pig Game** – Dice game with turn-based logic using DOM manipulation.

- **Array Bankist** – Banking UI using **array methods** for filtering, mapping, and transforming data.

- **DOM Bankist** – Login-based app with UI updates, timers, and interactivity.

- **Forkify App** – Recipe app with **real API integration**, modals, pagination, and search.

Professional Experience

MIS Executive & Coordinator
Eudisfun Technologies Pvt Ltd, Mumbai
Aug 2019 – June 2025

- Managed and analyzed large datasets for business reporting using Excel.

- Automated daily dashboards using **pivot tables**, **formulas**, and **macros**.

- Collaborated with teams to improve reporting systems and accuracy.
- Scheduled and followed up on tasks to ensure timely deliverables across departments.

- Developed logical thinking and attention to detail now applied in web development.

MIS Executive
